Illuminator Accessories - Permanent Color Filters

For Rob-Light Illuminators

Choose the color for your Permanent Color Filter from the Standard or Extended Palette Colors shown below. Check the appropriate box for your illuminator, then check the box next to your color selection. Please select one color only.

Standard colors

- Roblon Yellow
- Roblon Orange (R35900)
- Roblon Red
- Roblon Blue (Indigo)
- Roblon Green

- 6% N.D.
- 12% N.D.
- 25% N.D.
- 50% N.D.

Neutral Density filters dim light output as indicated by the percentages shown (i.e. 12% N.D. allows 12% light output); Note: N.D. filters are not optically neutral and will have a minor effect on the light's color quality.

Or Choose from the Extended Palette Colors Below

Extended palette colors

- Medium Yellow (R31012)
- Medium Green (R35055)
- Lt. Blue Green (R31073)
- Medium Blue Green (R35700)
- Dark Blue Green (R35400)
- Light Blue (R43202)
- Medium Blue (R35100)

- Medium Purple (R31048)
- Dark Lavender (R34965)
- Dark Pink (R34630)
- Medium Pink (R34758)
- Dark Red (R36500)
- Medium Red (R36100)
- Orange (R35900)

- Minus Green
- 4,000° to 3,100° (R43409)
- 4,000° to 2,800° (R43408)
- 4,000° to 2,700° (R43411)
- 4,000° to 2,400° (R43407)

- Blackout

CTO filters will adjust 4,000°K lamp color temperatures as indicated; results for other lamps will vary. Please see www.rosco.com for more information.

Note: Color samples shown are simulations of the colors available, not exact representations. In addition, actual color effect will vary according to the color temperature (°Kelvin) of the lamp used. Number references are from the Rosco Permacolor Dichroic Filter series.
